"For three years," she continued. "I suffered so from nervousness and catarrh of the head that I couldn't get more than two or three hours sleep a night. My head was stopped up all the time, my mouth was dry and hot and I had a continual dripping of mucous back into my thront. My stomach became affected and I couldn't digest what I ate. I had the most dread- mania results in capture of 1,500 prisful headaches imaginable and while I tried a number of different medicines kept getting worse.

"My stepfather in Lima, Ohio, told landed safely, me about Tanlac doing him so much good and advised me to try it and I'm certainly glad I took his advice, for three bottles have about made a new woman out of me. I have not had a beadache since I started taking Tanlac and the cutarrh is so much better that I hardly notice it any more. My stomach is in spiendid condition now and can eat and digest anything I want and am feeling just about as strong and well as I ever did. I have improved so much that my friends are all talking about it, and several of them are now taking it."

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the BLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poison ous does produces sluepr, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. The honor system in college is a practical failure, because there is no agency which can keep all of the students indefinitely stimulated, as the honor system demands that they must be stimulated. When the stimulus fails, a student is likely to fail in one or the other of his duties-the duty to refrain from cheating or the duty to prevent his fellows from cheating. The failure in the second is perhaps the most striking.

Under the best of conditions it is hard to combat the tenets of conventional ethics; one of the most universal of these is that "no honorable man tells on another man." The regular procedure in cheating cases is that a student shall report the name of the student cheating. But it is hard to convince the student of the justification of such a course. It is difficult to believe wholly in it oneself.

Antiquated Methods Must Go.

By REV. AUSTIN HUNTER of Chicago. The forward call today meets with strong response. The difficulties are always magnified. But there can be no progress except in the face of obstacles. In every department of life it is the brave pioneer who opens the way to larger progress. Many churches today in the cities are losing by lack of a forward movement. Antiquated methods must give place to modern methods, and the equipment of a few years ago must be replaced by an equipment that is up to date. Many of our city churches are trying to meet city conditions with only an elaborated country-church program.
